

A Value-Based Approach to Specialty Management

Emboss Specialty helps health plans improve performance across specialty care.

Our portfolio of value-based specialty solutions helps health plans manage specialty spend, improve quality, strengthen provider alignment, and deliver up to 30% savings in high-impact specialties.

Our excellence is your edge

Specialty Expertise. Measurable Results.

TOTAL EYE

Our value-based eye care solution integrates **routine vision and medical and surgical eye care** in a single model, delivering **up to 30% savings**. It aligns provider incentives and sites of service, manages the spend on ocular injectables, improves HEDIS® outcomes, and offers members cost-effective access to frames and lenses.

THRIVE THERAPY

Our value-based therapy model is designed to improve functional outcomes by aligning providers, performance, and cost, delivering **up to 30% savings**. By standardizing therapy episodes and incentivizing providers, our model reduces variation and creates predictable specialty spend across physical, occupational, and speech therapies.

PURE DERM

Pure Derm delivers **up to 25% cost savings** through value-based provider reimbursement and clinical programs. Clear Skin, available in select markets, provides targeted specialty pharmacy and clinical management, saving up to **\$10,000 per engaged member per year**. Our solution reduces progression to advanced therapies and time to treatment while improving the member experience.

ADDITIONAL SPECIALTIES

Our value-based model extends across multiple specialty programs, including **podiatry** in select markets, **gastroenterology** and **urology** in Florida, and **sleep** in Puerto Rico. Within each specialty, we bring a disciplined approach to network performance, clinical oversight, access management, and cost control.

Making a Mark in Specialty Management

Built for Accountability. Proven in Specialty Management.

Emboss Specialty operates as a health plan within a health plan for specialty care and specialty drug management. We bring the expertise, accountability, and operational rigor that help health plans gain an edge in specialty care performance.

The Four Drivers of Performance

Up to 30% Savings

Value-based reimbursement models and specialty-focused management strategies help reduce unnecessary costs while creating more predictable specialty spend.

Broad Value-Based Networks

High-performing provider networks improve access, strengthen provider engagement, and support member satisfaction through aligned reimbursement and performance incentives.

Proven Clinical Outcomes

Evidence-based programs support appropriate care, improve health outcomes, and help manage specialty pharmacy utilization.

Regulatory Excellence

NCQA-accredited processes, HITRUST-certified infrastructure, detailed reporting, and rigorous oversight help health plans meet quality and compliance objectives.

The Emboss Specialty Advantage

Up to 30% clinical and administrative savings

30+ years managing specialty care

7.5M+ managed lives

23K+ credentialed providers
